PROFILE

Senior Frontend Engineer with 6+ years building production React and Next.js applications across SaaS portals, corporate platforms, and e-commerce. Specializes in component architecture, performance optimization, and translating Figma designs into accessible, pixel-perfect interfaces. Recently extended stack into React Native for cross-platform delivery.

EXPERIENCE

Senior Frontend Developer Oct 2023 – Present

Future Cities for Engineering Consultations (FCEC) — Riyadh, Saudi Arabia

- Architected and shipped an internal Employee Portal (React + Node.js + Django, JWT auth) with a role-based access control system spanning 47 granular permissions, personalized dashboards, leave management, document expiry tracking, and internal messaging.
- Built a full budget-lifecycle module with multi-stage approval workflows, versioning, audit trails, and typed sub-items (iqama renewals, medical insurance, business trips) including expense tracking and increment-request flows.
- Delivered 6 production web properties including **aqeaw.com** (bilingual Next.js 14 portfolio), **fcec.sa** and **futurecode.sa** (bilingual corporate sites), **fceco.sa**, and **Kheir Fragrances** (Shopify Liquid e-commerce); deployed on Vercel with custom DNS configuration.
- Built the full-stack backend (Express + MongoDB Atlas on Heroku) with automated Outlook email notifications and a password-protected admin dashboard with search, filters, detail views, and Excel export for the review committee.
- Achieved Lighthouse scores of 85–89 Performance, 88–95 Accessibility, 92–100 SEO, and 96–100 Best Practices across production deployments (fcec.sa, fceco.sa, futurecode.sa) via code splitting, next/image optimization, and deferred third-party scripts.
- Prototyped a React Native CLI application with FlatList virtualization, React Navigation, form validation, and search/filter, targeting Android.

Frontend Developer Apr 2023 – Sep 2023

KreativStorm — Berlin, Germany (Remote)

- Built responsive React + ES6 interfaces consuming REST APIs across multiple client projects.
- Translated Figma and Adobe XD designs into pixel-perfect React components, contributing to a shared component library.
- Applied technical SEO fundamentals (semantic HTML, meta tags, structured data, sitemap generation) and mobile-first responsive layouts.

Frontend Developer Jul 2021 – Feb 2023

Crewlogix — Lahore, Pakistan

- Built and maintained custom Shopify themes in Liquid and React-based client interfaces across multiple stores.
- Collaborated with designers and backend engineers in agile sprints; participated in code reviews and PR workflows.
- Integrated third-party Shopify apps and custom Liquid sections for client stores, including product filters, review widgets, and conversion-focused landing pages.

Junior Web Developer May 2015 – Oct 2018

TEXOL — Dammam, Saudi Arabia

- Built and maintained corporate websites in HTML5, CSS3, and JavaScript; handled cross-browser compatibility and legacy browser support.
- Integrated CMS workflows and managed content updates across multiple client sites.
- Supported ongoing maintenance, bug triage, and deployment.
